A Journey into Twilight

👁 86 ✓ 1 ★ 3

Chapter 1 by sweetrolls

It was 2 in the early morning, right before the sun rises over the horizon, when, within a suburban neighborhood a figure stood out from the twilight. A girl of age 18 slipped out of her window and walked off into the distance. Her purpose was to visit a friend who lived hours away from her. Even without her parent's consent, she was determined to make it happen. All she has with her are the clothes on her back and a bag with money and food, enough to sustain herself until she finished her journey to visit her friend. She walked into the twilight, and disappeared into the sun's glare as it began to rise.

Chapter 2 by sterlingalston

She'd spent her entire life on that island and, even though she'd heard about them, never quite had seen one until her 17th birthday.

It was on a day like this when it was encountered. It had translucent skin that glowed a neon green as it emerged from the water, the Phytoplankton leaving a trail of glowing footprints as it moved. The being was her height and slowly approached her with arms extended on either side. A low hum vibrated through her spine as it immediately put her at ease. The being stopped to

wait for the girl's response, the first dialogue in a bond that, on that day, began to shape the world.
